GEORGE McNEIL, Treasurer of School Board.

We the undersigned have examined the foregoing accounts and find them duly vouched and correctly cast, and find a balance of \$21.61 in the hands of the treasurer.

WILLIAM H. PATTEN,

HENRY GOVE,

Auditors.

Report of the Board of Education.

THE SCHOOLS, WHERE LOCATED.

There were no schools in division 7. Of the three scholars to be provided for, two were supplied with attendance at Hillsborough Bridge, daily transportation by rail being furnished for that purpose. The remaining one attends school in Manselville division. There was no summer term in division 3. In the remaining divisions, the summer terms were ten weeks long with the exception of division 4, where the indisposition of the teacher rendered it necessary to close the term at the end of eight weeks. In the 6 divisions, the fall terms were twelve weeks long with the exception of division 1, a necessary delay of one week in the beginning, curtailing the length of the term to eleven weeks. With the above exceptions, the schools in the six divisions have for the year been twenty-two weeks long, and this will, we think, be the maximum length for some years to come. If it should become evident that a sum additional to that required by law is necessary to keep up the length of schools, to this desirable standard, it remains for every one interested in their welfare to see that the requisite appropriation is made for that purpose.

CONDITION OF THE SCHOOLS AND THEIR RESULTS FOR THE YEAR.

The relation between the teacher and the school in division 5, during the summer term, was somewhat strained, and though no pains were spared to secure the services of an efficient teacher for the fall term, this restraint was not wholly removed. No one regrets these undesirable conditions more than we do ourselves. While we do not wish to shirk our own responsibilities, we hope parents, teachers and perhaps, scholars may be generous enough to assume their share also,

for some of the causes that led to the impairment of the prosperity of this school. Order and discipline are required in every school, but teachers who rely entirely on force to secure these essential requirements, without the respect and esteem of the scholars, will find their labors abortive, and their position in the school uncomfortable. The examinations in all of the schools as far as attended have shown a good degree of improvement, some of them of a very high order. We regret the loss of Miss Flint from the school in the Manselville division. She is now engaged in teaching in Massachusetts. We shall endeavor to secure some of the teachers that have made our schools so successful for the coming year. It is worthy of mention that more individuals, parents, and others have visited the schools during the year than at any time since our connection with the same. We hope this custom now so well begun, may continue. The attendance of visitors at the examinations has contributed much to the interest in them, and teachers who frequently review the lessons in their respective classes, are never at a loss to fill up the half day usually devoted to examination, to say nothing of the time devoted to recitations, which should always be voluntary on the part of the scholar and never be introduced to the detriment or neglect of the regular order of study. We expect our teachers will make themselves familiar with the subjects delineated in the charts and use them daily in their class drills, as their utility has already been tested by the rapid progress and advancement made by the classes in the studies and topics therein illustrated.

REPAIRS OF SCHOOL HOUSES.

The school house in division 4 must be reshingled, and that one in division 3 and 1, in part. The school house in division 6 needs a few repairs, while a small outlay in Manselville division for seats is required. An estimate of the sum needed can be presented for consideration at the annual meeting.

We cannot close our report without the expression of our regret at the loss of the able chairman of the board, Mr. Al-

vin Tubbs, whose well known ability and unceasing labors have been devoted to the cause of education in the town for many years. To his counsel and assistance we have been indebted on many occasions, when he was a member of the board. Once again we thank parents, teachers and scholars for their co-operation and assistance in the cause, which we have so much at heart. All which is

Respectfully submitted,
GEORGE C. PATTEN,
WARREN W. MERRILL.

School Board of Deering.

TEXT BOOKS IN USE.

Lippincott's New Series of Readers, Harrington's Spellers, Tweed's Grammar for Common Schools. Swinton's Grammar, Montgomery's American History, Appleton's Geography, Steele's Physiology, Harper's Arithmetic and Silver & Burdette's Copy Books.
